

Dear friends and patients,

Over the past 28 years it's been my privilege and pleasure to be your personal doctor and friend.

Here's a short history of my medical journey so far. After leaving institutional practice in the 90's, I spent ten years as the Clinical Director for The Clinic @ Cuppage and then a subsequent 6 years at the Paragon with Aesthetic Medical Partners Ltd / Goh Seng Heng Clinic and the PPP Group of clinics where I served as the Group Executive Vice Chairman. I am grateful to Dr Goh Seng Heng for the mentorship and for the opportunity to serve AMPL during that time.

I am now delighted to announce that I have started my own practice:

from **Monday 20<sup>th</sup> May 2013** at

**#11-03 Novena Medical Centre.**  
**Clinic: 6397 6700. SMS; 9773 2670**  
[info@stmac.com.sg](mailto:info@stmac.com.sg)

I will continue to provide both medical and aesthetic services at my new practice and promise the same level of personal and meticulous care you've always enjoyed AND I will be keeping rates fair, reasonable and manageable.

With Doreen my highly experienced clinic manager and our team of nurses, we will strive to minimize waiting times while you enjoy our new comfortable premises. Yes 😊, there will be music, magazines and refreshments. Free wifi?.. ..of course and even your thirsty smart mobile devices and laptops can get refreshed at our power bar charging stations!

Don't hesitate to call us at tel: **6397 6700** and make an appointment with Doreen. Thank you very much and we look forward to see you soon.

Sincerely yours,

Dr Sydney Tan
